# SMARTPHONE STATION (STANDARD ON DOBLO): HOW IT WORKS

Smart, connected, modern, useful entry infotainment system

Consists of a smartphone, Bluetooth connection and a smartphone App with essential HMI and big buttons to simplify smartphone usage and interaction with the vehicle.

Embedded radio tuner/DAB

**Accommodate** the smartphone into the smartphone holder and plug the cable into the dedicated USB port (only if charging is needed)

**Pair the phone**  
With the Bluetooth connection to allow data communication with vehicle  
After the first pairing the App will be open automatically

**Command the smartphone**  
through the steering wheel buttons by recalling the vocal assistant (SIRI|GOOGLE)

**Use the smartphone App** to manage 4 universes

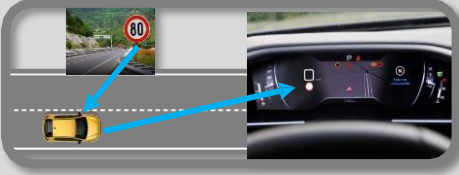

- Nav
- Call
- Radio
- Media

**Listen to** smartphone music, radio or phone calls through car sound amplifier and speakers
