SAFETY

IT KEEPS YOU SAFE.

When your business involves you being on the road every day, safety is paramount.

FIORINO offers all the safety equipment and driving aids such as **ABS** with electronic brake force distribution **EBD**, **ESC** complete with **ASR** (Anti Slip Regulation) and **HBA** (Hydraulic Brake Assist).

HILL HOLDER for those tricky hill-starts and **PARKING SENSORS**. Front **AIRBAGS** and front side airbags, which protect both head and chest. **CRUISE CONTROL** helps you maintain total control while driving especially in the highway.

*Optional equipment at additional cost
Pictures for illustrative purposes only

TRACTION+*

Is an aid for driving and setting off in poor grip conditions (snow, ice, mud, etc.) which allows the drive force to be distributed over the same axle when both wheels are slipping. It acts by braking the wheels with poor grip (or those slipping more than the others), thereby transferring the drive force to those which have more grip on the ground.

CRUISE CONTROL

It allows you to drive on long and straight roads with few driving changes (motorways) at a pre-set speed without having to press the accelerator pedal.

ESC

The Electronic Stability Control is a system that controls vehicle stability in the event of tyre grip loss, helping to maintain directional control.

HILL HOLDER

Integrated in the ESC system, it automatically activates in uphill/downhill with engine running and blocks the vehicle for few seconds without you having to press the brake pedal.

The CO₂ emission and fuel consumption values are defined based on official tests, in conformity with the provisions of the EU Regulations in force at the time of homologation. In particular, the indicated values are calculated based on the WLTP test procedure.

The CO₂ and consumption values are only indicated for the purpose of comparing the vehicle data. The CO₂ and consumption homologation values may not be representative of the effective CO₂ and consumption values, which depend on many factors related, for example, to weather and road conditions and to vehicle condition, use and equipment. The CO₂ and consumption values specified in this document refer to the versions of the vehicle with the highest and lowest values. These values may change depending on the selected equipment and/or tyre dimensions. The indicated CO₂ and consumption values are not definitive and may evolve if the production cycle is modified. In any case, the official CO₂ and consumption values of the purchased vehicle will be provided with its accompanying documents. If the CO₂ and consumption values affect the calculation of the vehicle duties and taxes, refer to the applicable standards in force.

STANDARD AND OPTIONAL EQUIPMENT

Exterior	Cargo SX	Functional / Electrical	Cargo SX
Tinted windows	S	Power steering	S
Key-lockable fuel filler cap	S	Headlight alignment corrector	S
Moulding	S	12 V socket	S
Integral hub caps	S	Door lock/unlock remote control	S
Electrically adjustable door mirrors with demister	S	Steering wheel height adjustment	S
Additional sliding side door	O	Climate control	S
Fog lights	S	Electric front windows	S
Rear Window Wiper	O	Heated rear window	O
